HAIL&NASH

Lash Lounge and Nail Bar

Nail Advice

We offer a range of nail services and styles at Hail&Nash. This is advice for anyone wanting to book in that may have questions :)

Nail extensions are gorgeous, however if you have brittle nails we would suggest using natural oils to strengthen them for a few weeks prior to booking. Jojoba oil is great for this!

What treatment are you interested in?

We currently offer shellac, acrylic extensions, and gel nail extensions plus our nail artistry is impressive!

What shape and length do you want?
Ohh and what colour?

Nails shapes and colour choice are the fun part! If this is your first time getting nails, don't get them too long.

NAILS DONE!

Now you've had them done, be sure to take care by wearing gloves when cleaning to as to protect your mani and moisturise your hands regularly including your cuticles.
Regular infills are a must and professional removal is always recommended xoxo
